prepared by Fleming Bros., of Pittsburgh, Pa., and a ferret.

"A ferret when placed at the extrance of a rat hole, enters the aperture, travels along the passage, selzes upon the rat, exterminates his existence and draws the animal's defanct carcass to the light. And in like manner have I found \$\text{Perro}\$ by the operate upon worms, those dreadful and dangerous tormentors of children. This remedy, like the ferret, enters the aperture of the mouth, travels down the guiltet, hunts round the stomach and lays hold of the worms, shakes the life out of the reptiles, sweeps clean their den, and carries their carcasses clear out of the system.
